Annual Meeting Of Trustees of Home for Aged

Committee Appointed To Look Into Matters of Enlarging Home—Between \$5,000 and \$6,000 In Addition To Donations To Run Home—Officers Elected—Treasurer's Report.

The annual meeting of the Board of Trustees of the Home for the Aged was held at the Home on Saturday afternoon, January 10. President Schoonmaker in calling the meeting to order stated that the time had arrived when he thought that the Home should be enlarged, sufficient funds could be raised to do so. There were, at present, in the home twelve old ladies, the oldest being 92 years of age, and there were as many more applications as there were people in the Home. He stated that the Home had been started five years ago, at which time sufficient money was pledged by various people to insure the care and maintenance of the Home for five years in advance; that time was now up and a number had already made pledges for the next five years, ranging in sums from \$50.00 a year up to \$200.00 a year. It takes between \$6,000.00 and \$7,000.00, in addition to the food donations which are given every year, to run the Home, and he was in hopes that there would be no difficulty in getting a sufficient number of people to contribute such sums annually as would, at least, bring the total up to \$6,500.00 each year. On motion duly made and carried, the president was authorized to appoint a committee of five to wait upon the citizens and see whether or not they could obtain the necessary pledges for the next five years. Mr. Schoonmaker stated that he hoped that people who felt like contributing would not wait until they were called upon to be asked for contributions, but if they felt so disposed, that they would either notify him or Frank R. Powley, treasurer of the institution.

In reference to the necessity of enlarging the Home, it was deemed wise to appoint a committee to look into the matter and report to the board of trustees at a special meeting to be held for that purpose, and on a motion duly made and carried, the president appointed Frank B. Matthews, Frank R. Powley and Hon. Martin Cantline as such committee.

The following resolution was unanimously carried: Whereas, at the time this Home was opened and ready for occupancy, Joachim Davis and his wife were secured to take charge of the Home, and whereas, during the past five years in which they have been in charge, they have endeavored themselves to every extent of the Home and have watched over and cared for their every interest and at the same time looked after the welfare and property of the board of trustees. Now therefore, the board of trustees desire to publicly express their thanks and appreciation to Mr. and Mrs. Davis for their wonderful work they have accomplished in the Home, and that they wish the board of trustees at which they will be spared to us for any years to continue the useful work in which they are now engaged. Be it further resolved that a copy of this resolution be sent to Mr. and Mrs. Davis.

Also the following resolution was unanimously carried: The board of trustees of the Home for the Aged desire to place on record their appreciation of the hearty support and cooperation of the board of managers of the Home. Resolved, that it be the sense of the board of trustees, that they alone are responsible for a wonderful work the Home has accomplished during the past five years. Be it further resolved that a copy of this resolution be forwarded to Mrs. Frank R. Matthews, president of the board of managers. The following trustees whose terms of office expired, were unanimously elected: John P. Snyder, J. Washburn, A. D. Rose, Ralph Hen, John Hiltbrand, William H. N. Slyke, Joseph M. Herbert, M. James H. Everett, Frank R. Matthews, Frank R. Powley, Dr. George Ross, Rodney R. Osterhout. The following officers were elected the ensuing year: President, Hon. John D. Schoonmaker; 1st vice president, Hon. Martin Cantline; 2nd vice president, Dr. Adolph Francis J. Higginson; 3rd vice president, George Burges; treasurer, Frank R. Powley; secretary, Everett Fowler. The treasurer made his report as follows:

To Collect City Taxes February 2

City Treasurer Harry S. Jacobs Preparing Annual Tax Bills Which Will Be Mailed Property Owners Last of Month—Nearly 6,000 Bills To Be Prepared.

Although City Clerk A. A. Styles has completed extending the taxes on the city tax roll for this year and turned it over to City Treasurer Harry S. Jacobs, the work of collecting the tax will not start until Monday, February 2, and taxes may then be paid without fee until March 4. The city treasurer and his office force are now busy at work preparing the nearly six thousand tax bills which will be mailed property owners the last of the month.

The work of getting out the nearly six thousand tax bills is one that requires considerable time as each bill must be accurate and contain not only the amount of the tax but a brief description of the property taxed. Since City Assessor William B. Martin completed his assessment roll for 1925 last summer, there have been over two hundred transfers of property in the city. These transfers of ownership have to be carefully checked up and changes made in the listing of property so that the present owner receives the tax bill, and not the former owner.

The city tax rate this year is \$35.20 per thousand valuation.

NEW YORK STATE NEEDS ANOTHER FEDERAL JUDGE.

The Home for the Aged was organized five years ago; Herbert Carl came the home which has been enlarged and made the furnishings many people donated the furniture for the same. It has been clearly demonstrated that this institution is one that receives the approval of the public in general, as is shown from the treasurer's report, because a great deal of food and supplies are furnished which are not mentioned herein, and it only cost for supplies for the past year \$1,221.70, all the other supplies having been donated. It is hoped that the public will continue their interest in this institution and that the board of trustees will be able to underwrite the expense for the next five years as they have for the past five years.

Sign Agreement Under Dawes Plan With the Allies

United States Becomes Partner in Profits and Responsibilities of Enforcement—Last Minute Changes—Third Big Event in Recent Years.

By Telegram to The Freeman.
Paris, Jan. 14.—The financial conference agreement, making the United States a partner with the Allies in the profits and responsibilities of enforcement of the Dawes plan, was signed at 10:40 a. m. today. Ambassadors Herrick and Kellogg, the latter the secretary of state designate, and Colonel Logan signed for the United States.

At the last minutes the clause in Section A reading "in an amount not exceeding \$350,000,000," referring to the total the United States will receive in satisfaction of its claims against Germany, was stricken out. After the ceremony of signing had been concluded, Premier Herriot addressed the conference, then Ambassador Kellogg and the French premier went into a long conference. Franco-American relations, including the moot question of the French war debt, were considered by the premier and the next secretary of state.

"There have been three great events of recent years," Ambassador Kellogg told the conference. "The first was the Dawes report; the second was the London conference and the third, present Paris agreement. It will mark the beginning of a new era for Europe which will have a reflex action on all the nations of the world."

"I affirm my confidence in the Dawes plan," Ambassador Kellogg continued. "It is based on solid business principles. I assure you the American people are keenly interested in its success."

As the protocol defining America's share in the proceeds of the Dawes plan left the hands of the experts committee late last night, it provided the following payments in settlement of costs of the American army of occupation and awards of the mixed claims commission: First, \$15,750,000 annually until the costs of the American army of occupation (\$240,000,000) shall have been paid. These payments will be a first charge on the cash available under the Dawes plan after the charges of the German external loan of 1924 and the costs of the reparations commission, the Inter-Allied Rhineland high commission, the military control commission and the Danube commission have been deducted.

Second: Two and a quarter percent of all the receipts from Germany via the Dawes plan in settlement of claims for war damage.

The United States agrees to waive its claims under the army costs and war damage agreement.

If the total sum paid in any year under the first clause falls below \$5,000,000 gold marks, the balance will be carried over to the following year, with interest at 4 1/2 percent.

The provisions for distribution of annuities received under the Dawes plan may not be altered without the United States consent.

The United States is recognized as having a 2 1/2 percent interest in that part of the annuities which may be distributed in the issuance of railway or other bonds under the experts' plan, or in the sale of such bonds.

Colonel Logan announced he would board the Berengaria January 25 enroute to Riga for a vacation. Chancellor of the Exchequer Churchill left for London at noon today. Churchill said of the completion of the conference: "After several weeks of reserve, Great Britain has reached an agreement with America, thanks to the high qualities of Ambassadors Herrick and Kellogg and Colonel Logan."

"A business agreement reached in a business-like manner without any politics mixed in," Colonel Logan told International News Service after the agreement had been signed. "We all congratulate ourselves that the application of the Dawes plan has returned to our midst, no longer as spectators, but as actors, the official representatives of the great American republic whose traditional idealism and spirit of solidarity permit us to regard the future with confidence." Finance Minister Clementel told the conference.

Senate's Consent Not Required.
Washington, Jan. 14.—The agreement signed at Paris today whereby the United States becomes a party to the Dawes plan, securing 2 1/2 percent of the annuities thereunder, does not require the consent of the senate, in the opinion of the state department. This opinion was expressed in reply to inquiries.

The agreement was signed on the direct authority of the administration, called from Washington.

Fake Examiners Robbed Bank

By Telegram to The Freeman.
Bloomington, Ills., Jan. 14.—There was no clue here today to the two "bank examiners" who leisurely helped themselves to \$75,000 from the Farmers' State Bank at Chenoa, near here, after spending yesterday afternoon checking the bank books with J. F. Kelley, president of the institute.

Included in the bandits' haul was \$13,000 in currency, \$3,500 in gold and the remainder in negotiable securities.

Police believe the robbers formerly were bank employees somewhere in Illinois, since their familiarity with banking methods was such that they aroused no suspicions when they presented themselves at the bank and informed Kelley they were new bank examiners just appointed for the district. Their visit seemed all the more plausible because Kelley had for several days been expecting examiners. The bandits waited until after all other employees had been dismissed from the bank and then, after binding and gagging Kelley, took the funds which they had checked over in the afternoon, and escaped.

New York Committee Which Favors Legislative Adoption of Child Labor Amendment Does Not Want Expression of Public Opinion.

Mrs. Richard S. Childs, chairman of the New York Committee for the Ratification of the Child Labor Amendment, in behalf of the 40 organizations cooperating in a campaign to have the New York state legislature ratify the child labor amendment, declared yesterday that a referendum to the voters of the state on the question of the amendment will be opposed by all of the groups favoring the amendment. Mrs. Childs said:

"In view of the fact that the press has given publicity to the statement that 'Friends of the Child Labor Amendment urge a referendum' the Committee on Ratification of the Child Labor Amendment, at a meeting on January 5 went on record in favor of continuing the campaign for approval by the present legislature. This committee, made up of between thirty and forty different groups, includes the State Child Welfare Commission, the Women's Trade Union League, New York State League of Women Voters, State Federation of Labor, State Committee, Young Men's Christian Association, Industrial Housewives' League, Council of Jewish Women, New York Section, Federation of Women's Clubs, etc."

"Strong sentiment was expressed by members of the committee that as both political parties have pledged the people of this state to ratify at the present session, any other action, if withheld, would be directly contrary to the understanding of the voters who elected this legislature."

"To meet this issue by an advisory referendum, the committee believes will be costly and an unnecessary delay."

LAST OF BANDIT GROUP ARRESTED

Detroit, Jan. 14.—Tom Nelson, alias Tommy Murphy, 29, said to be the last member of a six man bandit group which bound a postal driver to the steering wheel of his truck at Rochester, N. Y., and looted the car of \$12,000, was in Federal custody here today. Five other members of the band were arrested, authorities retaining four convictions.

Muscle Shoals in Tangle as Senate Moves in Circle

Underwood Bill Again Substituted For Norris Plan, by Vote of 46 to 43, So That Matter Rests Where It Was a Week Ago.

By Telegram to The Freeman.
Washington, Jan. 14.—For the second time within a week, the senate this afternoon adopted the Underwood bill for disposing of the government's huge Muscle Shoals water power project.

The Underwood plan was substituted for the Norris government ownership bill, which the senate adopted late yesterday. It was the second time this substitution was made by the senate. As a result the senate was running in a perfect legislative circle, having again returned to the spot it occupied a week ago, with final enactment of the bill no nearer.

The vote was 46 to 43 with the Norris group getting only scattered support from the Republican side. The Underwood forces combined both administration and Democratic support and a minor faction irreconcilably opposed to government ownership. On its previous adoption, the Underwood plan won by a vote of 47 to 36 with the same lines maintained as in today's ballot.

Senator Jones, Republican, Washington, immediately offered his plan, creating a commission as a substitute for the Underwood bill.

With a vote between the Jones and Underwood bills pending, Senator Norris, Republican, Nebraska, announced he would not again offer his government ownership plan as a substitute.

"Realizing that the combination here is strong enough to put over either the Jones plan or the Underwood bill and is strong enough to defeat my bill, I do not intend to offer it again," said Norris.

Thrilling Tale of Alpine Mountain Climber Who Sought Aid For Companion on Colorado Peak—Member of Rescue Party Still Missing.

By Telegram to The Freeman.
Denver, Colo., Jan. 13.—Another rescue party was forming at Estes Park today to make a third attempt to bring down from the storm swept summit of Tongue's Peak the frozen body of Miss Agnes Valle, Smith College graduate, and well known Colorado mountain climber, who was frozen to death after she had scaled the mountain Sunday.

Hope of finding alive Herbert Sortland, member of a rescue party, who became lost in the raging gale, virtually has been abandoned. Walter Keiser, Alpine mountain climber and companion of Miss Valle on her fatal trip, related a thrilling tale today of his fight in the storm with temperature ranging down to 50 below zero, to seek aid for Miss Valle after her feet had been frozen and exhaustion prevented her from descending the mountain after reaching the top.

Dr. Van Hovenberg had given the man permission to resume selling his milk was immaterial as the permit was not worth anything until the health board of the city granted permission. He said he had taken the matter up with the attending physician and learned that the milk was not handled by any member of the family in which there was the typhoid case, but was handled by the two farmers employed on the farm. For that reason he did not believe there would be any danger in allowing the entry of the milk into the city again.

Dr. Harold Clarke, food inspector, who had investigated the farm, stated it was not a typhoid farm, and the case that had developed was a sporadic one.

The board left the matter in the hands of Dr. Connelly to take such action as he thought fit.

Means Told About Splitting \$65,000

Former Department of Justice Agent, on Trial for Conspiracy, Said He Would Divide It With Prominent Officials.

By Telegram to The Freeman.
New York, Jan. 14.—Samuel Rosenblatt of Chicago, testifying today at the trial of Gaston B. Means and Thomas B. Felder on charges of conspiracy to obstruct justice, said Means told him on December 11, 1922, that \$65,000 which Means is alleged to have demanded from Rosenblatt and two other Chicago men, was to be split between William J. Burns, former Attorney General Harry M. Daugherty, Secretary of the Treasury Andrew Mellon and two other men.

Means demanded the \$65,000 in return for promising immunity to the Chicago men on a charge of using the mails to defraud in connection with the sale of stock in the Glass Casket Company of Altoona, Pa. Rosenblatt testified.

Paralytic as a Fire Menace

North Front Street Man Lies So Close to Stove His Clothing Is Liable to Catch Fire, Health Board Hears—No Typhoid Cases in Kingston.

Is a man who is a paralytic also a fire menace? That is a question that was brought to the attention of a member of the board of health by Fire Chief Joseph L. Murphy, and in turn was brought to the attention of the other members of the health board at the regular monthly session Tuesday evening at the city hall when considerable time was devoted to a discussion of the case.

It was brought out that the family consisting of a man, his wife and a sixteen year old daughter, reside in the cellar of the building at No. 121 North Front street. The man, who is a paralytic, had been an inmate until recently at the County Farm near New Paltz. The wife removed him from that institution and brought him to Kingston and they took up life on North Front street.

The wife and daughter both go out to work, and the daughter also attends the part time school. The father is left home alone during the day and lies on a cot which is close to the stove that heats the room. The fire chief stated that the fire menace is due to the fact that the man is helpless and lying so close to the stove that his clothing is apt to catch fire and that he would not only lose his life by fire but that the building might be destroyed.

It was stated that County Superintendent of the Poor Lester Sagenor was in Kingston Tuesday and had taken the matter up with Superintendent Thomas H. Edmondson of the local charity board. The conference had also been attended by Fire Chief Murphy and Corporation Counsel James Jenkins.

The health board believed that the matter was up to the charity commissioners and that undoubtedly Superintendent Edmondson would take care of the matter.

Typhoid Fever And Milk

Health Officer Daniel Connelly called attention to the action he had taken in stopping the delivery of milk in Kingston from a farm on the Sawkill road where a typhoid fever case had developed. He said that since that time Dr. Van Hovenberg, health officer of that town, had informed him he had given the man permission to sell his milk in Kingston again. This he had done after taking the matter up with the health authorities at Albany.

Dr. Connelly said the fact that Dr. Van Hovenberg had given the man permission to resume selling his milk was immaterial as the permit was not worth anything until the health board of the city granted permission. He said he had taken the matter up with the attending physician and learned that the milk was not handled by any member of the family in which there was the typhoid case, but was handled by the two farmers employed on the farm. For that reason he did not believe there would be any danger in allowing the entry of the milk into the city again.

Dr. Harold Clarke, food inspector, who had investigated the farm, stated it was not a typhoid farm, and the case that had developed was a sporadic one.

The board left the matter in the hands of Dr. Connelly to take such action as he thought fit.

Raw Oysters Not Cause

Dr. E. E. Norwood said that he notified by the annual report of Dr. Connelly—which will be found elsewhere—that there had been twenty cases of typhoid fever in Kingston during the past year, and asked if the source had been traced to the eating of raw oysters. He said he had read in the papers of an outbreak elsewhere which had been traced to the eating of oysters.

Dr. Connelly stated that none of the cases in Kingston had been due to raw oysters; and that at the present time there were no typhoid cases in the city.

Routine Matters.

Bills and claims against the board were added, and the laws and ordinance committee were directed to draft an amendment to the sanitary code defining the duties of a sanitary inspector and report at the next meeting. It was said that the present code provisions as to the inspector's duties were rather vague and indefinite and should be definitely stated.

The annual reports of the officers of the board will be found elsewhere. They were adopted and ordered filed.

State Wide Dry Law Unlikely to Pass Senate

Assembly Expected to Pass Such a Law But Defeat Expected in Senate—In Event of Passage, Governor Probably Would Veto It.

By Telegram to The Freeman.
Albany, N. Y., Jan. 14.—After a careful "counting of noses," Republican leaders at the Capitol virtually admitted today that their chances for passing a state-wide prohibition enforcement law were fast fading.

The Republican leaders, in their legislative program, pledged themselves to support legislation of this character.

The dry measure is certain to be passed in the Assembly but it is expected to be defeated by the Democrats in the Senate, assisted by at least four Republican senators.

The Republican prohibition bill was introduced on the opening day of the 1925 session by Assemblyman Edmund D. Jenks, Broome Republican. It says specifically that a person cannot be prosecuted under both the state and Federal law for the same violation of the prohibition statute. This removes the possibility of double jeopardy, which was stressed by Governor Alfred E. Smith when he signed the bill repealing the old Milligan-Gage law two years ago.

Supporters of the dry bill insisted today that the Jenks measure was certain to be passed in the Assembly but they admitted that its fate in the upper house was far from encouraging.

At least four, and possibly five Republican senators are said to be strongly opposed to enacting a state-wide enforcement measure. If four of the Republican members of the upper house vote with the Democratic senators against the bill, its defeat is certain.

Even should the dry bill be passed by both houses of the Legislature it would be certain to be vetoed by Governor Smith, according to persons close to the executive. In his annual message the governor told the lawmakers that "enforcement and not new laws" is needed to make prohibition effective in New York state.

The Republican senators who, it was said, have given the leaders of their party to understand they will not support dry legislation include John L. Karle of Ridgeview; Courtland Nicoll of New York; Leonard R. Lipowicz of Buffalo; James L. White and Homer E. A. Dick, both of Rochester.

Senator George R. Fearon of Syracuse also may cast his vote with those opposed to state wide enforcement law, it was said by those who are openly working to defeat such a measure.

Senator James J. Walker said today that he felt certain, after talking with several of the Republican senators, the upper house would not pass a state enforcement bill.

Senator John Knight, Republican leader of the Senate, is expected to use all his influence to have the upper house act favorably upon the dry bill.

MODERN REVAL IS SPRIGHTLY CITY

Capital of New Republic of
Estonia Is Progressive
and Up-to-Date.

Washington, D. C.—Reval, scene of a recent Communist outbreak, is the capital of the new republic of Estonia, whose stability was demonstrated by the quick quashing of the disturbance, says a bulletin from the Washington (D. C.) headquarters of the National Geographic society.

"Reval is a sprightly city, a music-loving city, a progressive and up-to-date city," continues the bulletin. "This is contrary to all expectations of a part of the Upper Baltic and a people of whom one American exclaimed, 'The Estonians! Oh, yes, they live up in the frozen North, like the Lapps, don't they?'"

Some Literary Statistics.

"Just before the World War Reval completed a magnificent opera house, built entirely by contributions of the people. The Esths are not witty or demonstrative—their virtues are the sturdy patience and hardy endurance of the North countries—but even the peasants can improvise verse and narrate legends by the hour over their black bread and weak tea. Neither has Estonia been accounted a literary nation, but one prodigious compiler has collected 45,000 Estonian songs, 8,000 tales, 52,000 proverbs and 40,000 riddles, not to mention 60,000 superstitions! And another collection embodies more than 13,000 folk melodies.

"Once the Esths were the Vikings of the Baltic, hardy and adventurous, terrifying the Danes and the Swedes with their piracy. They retain today their love of seafaring, which, keyed to the demands of modern shipping, makes Reval, despite its one ice-bound month, a port of growing business. The capital has more than 10 per cent of the country's population of some 1,110,000 people—and, economically, Estonia is a transit land rather than a self-productive one.

"Neat little trolley cars cruise through crooked streets from the modern shipping district of the lower city past crumbling churches and ancient castles. Commerce has not crowded out reminders of the days when the Hanseatic merchant, proud Dane, Swedish conqueror and Russian assassin successfully held sway. Out in a suburb is a chateau, and its environment park, which Peter the Great built for his wife, a former housekeeper of a Lutheran pastor and later empress in her own right.

"In the days when the Danes were the Romans of the North Reval's history began. Its colloquial name, Tallinn, means 'Town of the Danes.' The Danish flag of today commemorates a legend of a mighty battle near Reval. The Danes lost their banner, so the story runs, and were exceedingly hard-pressed. Suddenly from heaven fell a red banner with a white cross and around this insignia the Danes rallied to a decisive victory.

"Reval has the only medieval Gothic city hall remaining in the Baltic countries. Its venerable palace, a memorial of the Thirteenth century, now is an official residence. Visitors may ascend its tower for a good view of the harbor where Russia's men-of-war used to ride, though Baderker quaintly notes 'that the ascent is not recommended to ladies.' Another hall contains rooms of the Blackhead society, a 'national guard' formed by merchants of the Fourteenth century.

Grass Outgrows Grain.

"Geography was kinder to Reval than to Estonia as a whole. A splendid harbor, recently enlarged, invites the world's largest ships to moor there. The whole of Estonia is a plain, elevated slightly, with a soil partly so sandy that it cannot be cultivated at all, partly pure clay which often is impassable, and the moist atmosphere is good for grass but bad for grain. Consequently Estonia's chief industries center about cattle from its grazing areas and wood pulp from its forests. Potatoes are grown in plenty, and potato spirits are distilled. Leather, cement, furniture and paper are manufactured, and Narva, near water power to weave cotton.

"The present government of Estonia, which resisted the Communist attack, places the power in the hands of the people who elect a legislative assembly of 100 members, chosen by proportional representation."

Arkansas House, Built in 1770, Still Occupied

St. Charles, Ark.—The oldest occupied house in Arkansas is an old adobe house, built here in 1770. The wall timbers, floors and all other wood used in the house is of hand-hewn, well-preserved walnut. It stands on the bank of White river.

The house was used as a hospital and later as headquarters for Confederate officers during the Civil war. A cannon ball was fired through the building then, passing through the walls of three rooms. The ball is still kept, and is exhibited by the occupants of the house.

One of the most destructive single shots of the war was fired from the old building. This struck a federal gunboat on the river, killing 148 Union soldiers and wounding others. A memorial monument has been erected in St. Charles to these 148 and the others killed during the engagement. The memorial and the house constitute the show places of the town.

First White House Bride

Lacy Payne Washington, sister of Mrs. Dolly Madison, was the first White House bride. Her marriage to Associate Justice Todd of the United States Supreme court took place in the President's mansion in 1801.

THE OFFICE CAT

(By Junius.)

We understand that the collection of antiques at the British Museum has been enriched by a perfect specimen of the hairpin of the pre-shingle epoch.

A man climbed into a barber chair. Barber noticed a bear tooth watch chain.

"Bear's tooth ain't it?" asked the barber.

"Yes."

"Out West hunting, I suppose, sir."

"Yes."

"How many shots did it take to kill him?"

"None."

"My goodness! Did you kill him with a knife?"

"No."

"Heavens! With your bare hands, sir?"

"No."

"Then—then—er—how, sir?"

"Talked him to death."

Help a man get out of trouble and when he gets in again he will remember you.

We shouldn't expect a wise answer to a fool question.

Clipped from the want-ad column of a large city daily: "Wanted, twenty salesladies. Baer & Wilde."

Endurance contests make little impression on a man who is having his teeth tinkered with.

Everything's got a moral if you can only find it.

The credit association has discovered that this city has a large number of "live wires" in that everything they have is charged.

A Chinese applicant for a job wrote as follows:

"Sir—I can drive a typewriter with a great noise and my English is great. My last job has left from me, for the good reason that the large man is dead. It was on account of no fault of mine. So, honorable sir, what about it? If I can be of use to you I will arrive on some date that you should guess."

A lot of people lost interest in the action of human beings on Mars soon as they realized that even if there were, it would be impossible for us to sell them anything.

Bad news always looks worse coming than going.

Bill: Where you going with that apple?

Honor: To see the doctor's wife.

His: Oh, the apple is to keep the doctor away.

Patriotism is taking your arm around your girl to clap as the United States cavalry gallops across the screen.

Yes, when she wasn't looking I missed her.

What did she do?

Refused to look at me the rest of the evening.

Jack—Girls are prettier than men.

Jill—Why, naturally!

Jack—No. Cosmetically.

WEST PARK

West Park, Jan. 13.—The annual meeting of the Woman's Auxiliary will be held at the rectory of Ascension Church on Thursday, January 15, beginning at 11 a. m. The special business will be the receipt of annual dues, reports of officers, and the election of officers for the ensuing year. The members are cordially invited to bring their husbands with them, so that all may become interested in missionary work. Lunch will be served about 12:30 o'clock.

William Schickie of Poughkeepsie made a few calls here on Sunday.

Albert L. Kirkland moved his mother, wife and son to Jersey City on Sunday, having given up the store at West Park, but will retain the post office a few weeks longer. Mrs. Frank Ackert is assistant for the present.

Mr. and Mrs. Allan Gale entertained at dinner last Tuesday about 15 members of the Order of the Holy Cross.

Liberty

The liberty of a people consists in being governed by laws which they have made themselves, under whatever form it be of government; the liberty of a private man is being master of his own time and actions, so far as may consist with the laws of God, and of his country.—Covley.

INCOME TAX IN A NUTSHELL.

Who? Single persons who had net income of 1,000 or more or gross income of \$5,000 or more, and married couples who had net income of \$2,500 or more or gross income of \$5,000 or more must file returns.

When? The filing period is from January 1 to March 15, 1925.

Where? Collector of internal revenue for the district in which the person lives or has his principal place of business.

How? In instructions on Form 1040A and Form 1040; also the law and regulations.

What? Two per cent normal tax on the first \$4,000 of net income in excess of the personal exemptions and credits. Four per cent normal tax on the next \$4,000. Six per cent normal tax on the balance of net income. Surplus on net income in excess of \$10,000.

YOUR INCOME TAX.

No. 3.

If you are single and support in your home one or more persons closely related to you and over whom you exercise family control, you are the head of a family and entitled under the revenue act of 1924 to the same personal exemption allowed a married person, \$2,500. In addition, a taxpayer is entitled to a credit of \$400 for each person dependent upon him for chief support, if such person is either under 15 years of age or incapable of self-support because mentally or physically defective. Such dependent need not be a member of the taxpayer's household. For example, an unmarried son who supports in his home an aged mother is entitled to an exemption of \$2,500 plus the \$400 credit for a dependent, a total of \$2,900. If from choice the mother lived in another city, the son, although her chief support, would be entitled only to the \$1,000 exemption, plus the \$400 credit. The mother not living with him, he is not considered the head of a family.

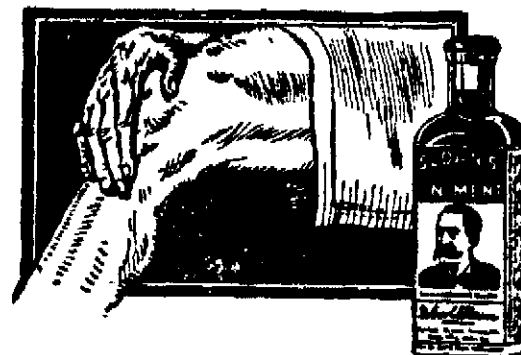

An exemption as the head of a family can be claimed by only one member of a household.

The \$400 credit does not apply to the wife or husband of a taxpayer, though one may be totally dependent upon the other.

Company Held Liable for Coal

Manufacturing Company De-
clared It Owed Hangeries Coal
Batter, Claiming Coal Had Been
Used by Former General Manager.

The action brought by Richard D. Hangeries, doing business under the name of the Hangeries Coal and Lumber Company, against the Rands Manufacturing Company, was concluded in county court Tuesday afternoon and sent to the jury late in the afternoon. After supper and a short discussion the jury returned a verdict in the sum of \$106.56 for plaintiff.

The plaintiff claimed that the company, which conducts a factory at Hangeries, where it sews garments for the New York concerns, owed \$99.01 for coal which had been used and charged to the company. Mr. Hangeries of this city who controls the company claimed that the company did not owe such amount. He claimed that \$22.40 was due the company for coal used by the Hangeries Company and that the balance of the bill was for coal which had been ordered and used in the home of the general manager, Mr. Hangeries, during his administration.

Mr. Hangeries denied that he owed the coal. He has since had a agreement with Mr. Hangeries and as a result is no longer with the company. He testified that he was to become a partner of the firm but that the agreement was not lived up to by Mr. Hangeries and he never made a partner. During his time at the factory as manager, he testified he had been given charge of the factory and had ordered coal for the factory and for his own use and still owed a small balance. Once he had been out of coal and had told Hangeries he needed coal and that he was afraid he could not further credit from Overbaugh as he was authorized to order coal for his home and have it charged to the Rands Company. He remembered ordering one ton of coal. Overbaugh for coal delivered at the Hangeries house, the witness testified had not been delivered at that time. When he placed the order with the Rands he had given his name and the driver went to the house with the coal but it was sent back and used at the factory. He never had any pea coal at his home. He and the understanding was that Hangeries would pay for the coal when charged to the Rands factory and used the money for coal used in his home would be taken from his

salary to reimburse the Rands Company. Mr. Hangeries denied that he had told Overbaugh to order coal and have it charged to the factory account. He contended that the coal billed to the Rands factory account had been used by Overbaugh and had not been sent to the factory as alleged.

During the trial several heated arguments took place between counsel and clients and at one stage of the trial the court was compelled to order one spectator to his seat when he insisted on coming inside the trial and talking to counsel in the case.

W. N. Fessenden and Judge James Jenkins appeared for the plaintiff and Henry Klein appeared for the defendant.

All jurors not engaged in the case were excused until Monday afternoon at 2 o'clock.

Welsh Tenor To Sing Here

Rhys Morgan, said to be the most famous of Welsh singers and one of the greatest tenors of the younger generation, will give a song recital in Kingston Wednesday evening, January 21, under the auspices of the local Kiwanis Club.

Secretary of Labor John J. Davis, himself a musician of no mean pretensions and a brilliant statesman of Welsh extraction, is one of the sponsors for this brilliant young man who has, within three years, been acclaimed by the greatest music critics of two continents. After hearing Mr. Morgan in one of the few concerts he gave early in the spring, Secretary Davis telegraphed Roger de Bruyn, Mr. Morgan's manager, in these words:

"I had today for the first time the pleasure of hearing Rhys Morgan in concert. His singing of the oratorio 'Sound an Alarm' and the Welsh and English ballads, more than repaid me for the long trip I took especially from Washington to be present on this occasion. I venture to predict that within a very short time he will sing himself into the hearts not only of the Welsh people but the American as well, and become the greatest and most beloved tenor on this continent."

Mr. Morgan will sing on his program, not only songs in several foreign languages, including a group of Welsh folk-songs, but a wide selection of compositions by native composers. His beautiful and pure tenor voice is rated as one of the most perfect instruments in this country.

Board of Directors of Chamber of Commerce Met Tuesday and Organized by Electing Officers—Annual Meeting Tonight.

Charles A. Lasher, of the Kingston Gas & Electric Company, was elected president of the Kingston Chamber of Commerce at a meeting of the directors held Tuesday afternoon. The other officers elected were: First vice president, Max Reben, of the Barth plant; second vice president, Arthur H. Wicks, proprietor of Thomson's Laundry; treasurer, William A. Van Valkenburgh, real estate and insurance.

This evening the officers will be installed at the annual meeting to be held in the Fair Street Reformed Church, where a turkey dinner will be served at 8:30 o'clock. During the evening Zucca's orchestra will furnish music and Miss Mildred Messenger will sing. The address of the evening will be delivered by Colvin B. Brown, chief of the organization service bureau of the Chamber of Commerce of the United States.

ACADEMY PAYS TRIBUTE TO DR. GEORGE F. WILKLOW

A valued member of the Kingston Academy of Medicine has gone, and it is fitting that we publicly express our sense of loss in the death of Dr. G. F. Wilklow of Ellenville. He was a charter member of the Academy and greatly interested in its organization and development. He was a good physician, scientific in his work, and ethical in his treatment of his fellow-workers. The keynote of his character was his earnestness. He did what he thought was right and was zealous in his devotion to his patients.

The Kingston Academy of Medicine mourns his sudden death and will hold his name in reverent memory. GEORGE F. CHANDLER, M. D., President.

JOHN G. O'LEARY, M. D., Vice-President.

STOCK THE TROUT STREAMS.

Trout Fry of Fingerlings for the Public Waters of the State.

Now is the time to send in applications to the conservation commission of the state of New York for trout fry or fingerlings. Blanks may be secured by addressing the Fish Culturist, Conservation Commission, Albany, N. Y.

No charge is made for the fish, but applicants must agree to receive the fish and arrange for their distribution and place them in the streams.

Stocking the trout streams is very important and those who are interested should attend to the matter at once, as applications must be in the hands of the conservation commission by February 1, 1926.

WEST SAUGERTIES.

West Saugerties, Jan. 14.—Saturday evening the I. O. O. F. of this place held a public installation.

Wood sawing has been the order of the day for over a week. Edson Wolcott of Blue Mountain, had his canoe up here and sawed wood for several families.

Mr. Leedick also sawed wood here. Several of the residents here attended communion service at Blue Mountain church on Sunday.

Mr. Hangeries is still sick. Henry Horton and family are residing in Saugerties with his father-in-law, Frank Horton, for a while. He came up every morning to work for Mr. Rogers and his daughter Viola, comes with him to school.

Germ-Killing Metals

Germs that come in contact with certain metals are destroyed as shown by recent experiments. Copper, zinc, brass and silver are capable of killing germs, but these metals also are most easily attacked by chemicals. In the tests the germs were not harmed by platinum, nickel or pure gold, which are cleaned and polished.

When You Catch Cold Rub on Musterole

Musterole is easy to apply and it gets in its good work right away. Often it prevents a cold from turning into pneumonia. Just apply Musterole with the fingers. It does all the good work of grandmother's mustard plaster without the blister.

Musterole is a clean, white ointment, made of oil of mustard and other home samples. It is recommended by many doctors and nurses. Try Musterole for sore throat, cold on the chest, rheumatism, lumbago, pleurisy, stiff neck, bronchitis, and all the ailments of the chest, throat, and back and joints, sprains, rheumatism, neuralgia, chilblains, frost-bite, etc. of all sorts.

7c Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c jars and tubes; hospital size, \$3.00.

Reduce Interest To Railroads

Secretary Mellon Urges Reduction in Interest Charges on Government Loans as Means of Averting Financial Catastrophe.

By Telegram to The Freeman.
Washington, Jan. 14.—A reduction in interest charges on \$223,000,000 in outstanding government loans to American railways was recommended today by Secretary of the Treasury Mellon in testimony before Senate interstate commerce committee.

Mellon urged this step as a means of averting financial catastrophe among the debtor railroads. He suggested a slash in the interest rate from six to four per cent, declaring the reduction would be "a good business move."

CLUB HOUSE FOR ELLENVILLE LEGION UNIT

At the Monday night meeting of George D. Cook Post, American Legion, No. 111, January 5th, the matter of a club house and home for the Ellenville ex-service men was again discussed. Plans are now under way to make the matter a reality. Two hundred and fifty dollars was pledged by those present as a starter towards the club house fund. At the next regular meeting Commander Douglas will appoint a committee to start actual work on the project. Plans for a big Legion dance to be held on the night of January 30 were discussed. Joe Dealy will be in charge of the affair, and the famous Vernon Club Orchestra of New York city will furnish the dance music. Streamers, confetti, balloons and all the trimmings will be present and Joe Dealy has promised the Legion boys that he will put over a real big affair. The affair will be held at Norbury Hall. After the business session, the boys adjourned to Atkins's Restaurant where a clam chowder supper was enjoyed.

JUDGE HAND ORDERS SALE OF ALSEN CEMENT PLANT

Judge Hand, in United States Federal Court at New York, has signed an order directing the sale of the Alsen Cement plant, and Earl B. Barnes, of New York, was appointed special master to conduct the proceedings. It is reported, on what appears to be the best of authority, that the owners of the outstanding bonds, will rehabilitate and conduct the plant.

This is a straight foreclosure action on the first mortgage bonds. There are at present outstanding bonds worth approximately \$1,200,000 and it is understood these are closely held. The foreclosure action is entirely independent of the receivership proceedings, in which Martin Conboy, of New York, was appointed receiver and who is still acting in that capacity. The receivership action was the result of a suit brought by the J. P. Burton Coal Company, against the Hudson Valley Portland Cement Company, in 1923.—Catskill Mail.

HIGH SCHOOL P. T. A. MET ON TUESDAY

The meeting of the Parent-Teacher Association of the Kingston High school was held at the high school Tuesday evening. William C. DeWitt presided and Dr. Myron J. Michael presented the object of the meeting. Mrs. Alfred D. Van Buren gave a short but very pertinent talk on the need of a High School Parent-Teacher Association, alive to its privileges and its necessity. The chair appointed a committee consisting of Mrs. Whitson, Miss Corcoran, Sam Wattle, Mrs. George Burgevin and Principal Van Ingen—to arrange for another meeting at which time the organization will be completed and an interesting program given. Announcement of the date and program will appear later.

Philippine Mohammedans

In the Philippine Islands there are about 400,000 Mohammedans, who are Mohammedans. Although the oldest and most faithful of the natives, they are the only ones who have petitioned to have the United States keep control of the Philippines.

The Appleton Family

Mr. Lyander John Appleton
Mrs. Lyander John Appleton
Miss Doreen May Appleton
Master Chauncey Devere Appleton

MRS. LYANDER JOHN APPLETON discovers many things that puzzle the physicians. "I bent over too far in stretching the carpet," she will say; or "I reached up too high in cleaning a pantry shelf, and something in me snapped, and I haven't been well since." Something is always snapping like this, according to Mrs. Appleton, leaving the impression that her insides are always snapping like firecrackers.

Lyander John Appleton once believed that if he bought enough rockers, he wouldn't have to give up his when company came, but though he filled the house, he still hasn't enough. He abandoned that ambition and is now trying to get so many beds in the house that he will not have to sleep on the parlor lounge when company comes. This ambition is the only one Lyander John Appleton has left.

Mrs. Lyander John Appleton talks a great deal to callers about her ailments. It is related that the preacher called once to ask about her husband's soul, and all he could find out from Mrs. Appleton was the condition of her liver.

It has never dawned upon his mother and sister that the reason Chauncey Devere Appleton always pulls out the chair that has a weak leg, and breaks it down before company, is that he isn't allowed in the parlor often enough to become acquainted with its short-comings and infirmities.

Though a great deal of money has been spent on Doreen Mayne's voice, she can't throw it farther than a block in calling Chauncey Devere home in the evenings, while a girl who lives next door, and who knows nothing about scales except the kind found on a fish, can throw her voice six blocks. Your Last Name
IS IT HACKETT?

HACKETT is found in England as well as in this country and as an English surname it is undoubtedly a corruption of Harcourt, a French town. Thus the first to be called Hackett in England may have been a resident of Harcourt, France.

But the founder of the Hackett family here was not of English or French origin. He was native of Holland and came to this country over a hundred and twenty-five years ago. He married a daughter of Rev. Abraham Keteltas, a New York clergyman. Their son was James Henry Hackett, born in New York in 1800. After graduating from Columbia college he married Katherine Sugg, an actress, and for several years led a successful career as a merchant. Financial reverses came, however, and at his wife's suggestion he went on the stage. Both he and Mrs. Hackett acted successfully for many years. Their son was James Keteltas Hackett, born in 1800, whose middle name was that of his paternal grandfather.

Butt—One very good authority says that this is a form of Bouton, meaning boat. Others say that the surname Butt is derived through mispronunciation from Burton or Buterton, places in England.

Bowles—This name, it is agreed, is derived from Bowles, a place in Normandy. One of the early members of the family wrote his name Hugh de Boies.

Champness—This name, which has the variation Champness, found in this country and England, is derived from Champagne and indicated one who came from that section of France. (By McClure Newspaper Syndicate.)

Forty Minutes Of Playing in Tonight's Game

Time Will be Taken Out For All Foul This Evening When Yankees Meet Kingston—New Faces in Lineups.

When the Yonkers team of the Metropolitan League takes to the court this evening at the armory, it will present a very strong line-up, having added to its roster one of the best guards in the league, Joe Dreyfus. Presently the down-river outfit is in a lowly position, having been beaten in both starts this second half. In the remaining games of this half Yonkers is expected to make a much better showing and tonight it will be given a severe test, tackling the Morgenweckers. McElwain, the fast forward of the Yonkers aggregation, is expected to make a mark in future games. The remaining players on the roster of the Yonkers team include Waamer, Garland, Malone and two new members, Marvin and Gegenbach. There will also be a new player wearing the Kingston uniform this evening, who needs no introduction to local fandom. Maurice Tome, recently obtained in a trade for Campbell, is the latest addition to the Kingston team. Tome, a veteran of the court, is an all around player. Besides being a good center and guard he has a good eye, which was demonstrated on the local court in two games this season.

Full Forty Minutes.
The ruling, calling out time for all fouls committed in the entire game, instead of the final three minutes as heretofore, will be in effect this evening, when Yonkers plays here. The calling and shooting of fouls in the majority of games played took up most of the forty minutes, leaving but little time for actual playing. With the new ruling in effect fans will view forty minutes of basketball. Just how some of the teams will look going the full minutes, remains to be seen.

Twelve Valley Moguls to Gather

At Poughkeepsie Sunday to Discuss Twilight League—Cohen and Brown Expected to Attend.

The Poughkeepsie Evening Star and Enterprise has the following to say:

Brown Hunter, manager of the Middletown Grays, who is interested in Eddie Phelan's newly proposed league, has written to the promoter saying that he will be on hand Sunday afternoon for the gathering. The meeting will be held at the Democratic Club and Bill McCabe, former manager of Poughkeepsie in the old Hudson Valley League, will be in charge of the gathering.

Phelan's plan is a twilight loop with all the clubs in this section being entered. The promoter believes that with the circuit properly organized a league should be a success.

Lou Brown of Kingston will also be on hand as well as Monahan of Maybrook, Bill Shay of Newburgh, Haight of Millbrook, George Dunbar of Amenia, Miller of Red Hook, Jim Buckley of Rhinebeck, Harry Desmond of Saugerties, Sheldon of Walden, Cohen, of the Kingston Colonials, Hunter of Middletown and Gus Joy of the Poughkeepsie Red Sox.

Gus Joy stated today that he expects to enter this league in preference to Bozell's loop of Schenectady. The upstater has planned a loop similar to that of Phelan's but it is expected that both Kingston and Poughkeepsie will cast their lot with big Eddie. Phelan plans at least three games a week and this idea is meeting with favor with the moguls. It is also known by the managers that they would have to secure a \$500-a-month club to stay in the running. Because of the weather conditions it is thought that the meeting will be called early on Sunday afternoon. Hunter would like the meeting called at 1 o'clock so that he could make connections to this city. Kingston also wants an early starting date and because of this Mr. McCabe is expected to launch the business of the afternoon at a very early hour.

NUTRI TO COMPLETE TRAINING TODAY

By Telegraph to The Freeman.
New York, Jan. 14.—Paavo Nutri will complete his training today for the most difficult assignment ever laid out for a modern athlete. The running of three races on three consecutive nights in cities separated by upward of a thousand miles. Nutri will compete against Willie Rifeola and others in the 2,000 metre race at the Municipal games here tomorrow night, board a train for Chicago and race Jole Ray in a mile and three quarter event on Friday, board another train and return to New York to compete in 2,000 metre event in the Fordham meet here Saturday night. Nutri is expected to do alternate running and walking in Van Cortlandt Park early today and follow this up with a brisk spin over the track of a local armory late this afternoon.

Tonight's Games at Epworth Hall.
At Epworth Hall, Clinton avenue, this evening, the preliminary basketball game will be played by the Minutemen and the Clinton Avenue Juniors at 7:30 o'clock. The big game of the evening will be between the Clinton Avenue Juniors and the Church of the Redeemer.

Kingston Will Play in South

The Washington, D. C. Herald Sports, a daily newspaper, in its issue of Monday, January 12, says:

Next Sunday the famous Kingston basketball team, leaders in the first half of the Metropolitan League engagements in New York city, will play the Palace Club.

The Palace Club, the only professional team of the south, is firmly established. Against the Rochester Centrals, the Original Celtics, the Buffalo Lincolns, the Buffalo Hewitts and the Fort Wayne Knights, the local aggregation has performed creditably. The advent of Horse Haggerty has boosted the stock of the Palace Club materially. The team appears to have found itself and is sure to give a fine performance wherever it appears.

Sunday's engagement with the Kingston team looks to be every bit as big an attraction as the Original Celtic contest of two weeks ago. The Kingston team decisively defeated the Celtics twice this season. Schmeek, Benzoni, Lynch, Haggerty, Cooney and Bushman will be in the Palace Club line-up, as usual, this combination having been settled upon as the best obtainable.

PORTER LED HITTERS

In International League During 1924, With .304 Percentage.

By Telegraph to The Freeman.
New York, Jan. 14.—Dick Porter, of the Baltimore Orioles, led the International League in hitting during the season 1924, according to the official averages made public today. Taking part in 129 games he was 509 times at bat and got 185 hits for an average of .364. He was topped by Moran of Reading with an average of .376, but the latter was not entitled to leading honors because of the fact that he only took part in 63 games.

Great Britain's Biggest Fight.
By Telegraph to The Freeman.
London, Jan. 14.—The Gibbons-Firpo match is possibly a certainty for March 30, the Daily Mail announced today. The contest promises to be the biggest fight Great Britain has had, the Mail adds, since Peter Jackson fought Frank Slavin in 1892.

Pittsburgh Beat Duluth.
By Telegraph to The Freeman.

Pittsburgh, Pa., Jan. 14.—The champion Pittsburgh Yellow Jackets last night defeated the Duluth hockey team by a 3 to 0 score in an extra period that ended with a near riot when the rival players clashed near the Duluth goal.

Hornets Won Again.
The Hornets of East Kingston beat the Wilkewick Fire at the East Kingston court Tuesday night by a 57 to 19 score. Parise again led the scorers with 31 points. Tierney was second with 11 points.

Bout Not Worth the Excitement

Neither Delaney Nor Flowers Champions and Probably Never Will Be—Neither Fighter Has That Robust Jaw.

(By Davis J. Walsh)

By Telegraph to The Freeman.
New York, Jan. 14.—This man's town has lashed itself into a lather over the prospect of a new middleweight champion of the world being born at some early moment during the meeting between Tiger Flowers and Jack Delaney at Madison Square Garden on Friday night. The boys are doing an Arthur Duffey to the box office in copious quantities and many of the heat winners are said to have gotten inside even in time for the last hundred.

They think the Tiger is a black man eater and the memory of Delaney's knockout of Paul Berlenbach still lingers in the mental card index. Yet neither man is a champion and possibly never will be.

The general idea, however, is that Harry Greb has little in common with Tennyson's brook and cannot go on forever. If either Flowers or Delaney wins a knockout on Friday many of our citizens will rush into the night proclaiming the impending birth of a new king.

This is the way of the cash customer and it helps to maintain men like Tex Rickard in the style to which they are accustomed. The writer is not at all certain that either Flowers or Delaney is worthy of all the excitement they are creating.

The Bridgeport entry is alleged to have a weak jaw and perhaps he has. Certainly a knockout would be no novelty to him for he has the full ten numerals chanted over him before. During the first two rounds of the Berlenbach fight, he gave an imitation of the man who is hit with some blunt instrument and only a sudden lashing out with a right swing to Berlenbach's jaw turned the tide. This proved Delaney's fortitude but did not disprove the allegation that his jaw lacks the granite of the true fighting man.

Flowers front ran his way to a victory in his only start here. He stopped Johnny Wilson in three rounds at the Garden and since then has been dropping them with much regularity and a sock in the rotunda. But smart judges of boxing would like to see the Tiger under the fire of a real puncher, a tough citizen who brushes his teeth with a nail file. They seem to think the Tiger might lose some of his rough ways under these circumstances.

He has been knocked out five or six times, Lee Anderson and Kid Norfolk being listed among the knockout winners. In his slick, city way, Walk Miller, the Tiger's manager, has explained that four of the knockouts were scored with "lucky punches." The Tiger, he intimated, was winning all off by himself when they popped him without warning. This, if true, would seem to indicate that Flowers himself has no robust jaw.

That being the case it might be well to mention to those who profess to see a new middleweight champion coming that Harry Greb can "take" it like a sponge takes water.

O'Connell Given Decision.
By Telegraph to The Freeman.

Cleveland, O., Jan. 14.—Although Charlie O'Connell, Cleveland lightweight, had to be frequently cautioned for fouling, he wiped out last night the sting of the one round defeat administered to him last spring in Rochester by Archie Walker of New York, when he was given the referee's decision at the end of their 12 round bout here. O'Connell knocked Walker down in the first round, the Manhattanite taking a count of nine. In this round the fighters both took a head dive out of the ring in a clinch. The remaining rounds were slow.

EXHIBITION OF TERRIS
NOT VERY IMPRESSIVE.

By Telegraph to The Freeman.
New York, Jan. 14.—It was the consensus of opinion today that Sid Terris, hailed as the leading contender for Benny Leonard's title, had failed to impress as a champion-ship possibility in gaining a close decision over Jimmy Goodrich of Buffalo at the end of 12 rounds last night. After being out-stepped in the early rounds, Goodrich rallied and carried the fight to Terris, whose dancing tactics were pretty but not altogether effective. Many thought that Goodrich was entitled to a draw.
